Karen- Is there a good contact at WVDHHR to get an update from or is best person JD Douglas?

or St. Albans field office?

I do not have the SOP in front of me here at home- so Ghassan shall I get the update and airport contact information and call airport.

If the state has done this already (given update) do we also.

They must have since US Airways notified Region 6...but it will be going on for a few more days...so maybe an update should be sent to the Region..

Should I contact the St. Albans office and/or JD Douglas to determine if this was done for this spill?

I'm hoping the PWS would have alerted the airport and any other users.

In the future we should confirm the airport has been notified, and the airport notified the carriers??

Lisa – I've left Vic Zayer a message.

Subject: CRW - Chemical Spill

Hi,

I hope all is well & you had wonderful holidays.

I've been made aware of the situation in CRW with a chemical spill. PSA & Piedmont are the express carriers that service this market. Both carriers have been made aware and have remove operations for that city for the time being. Just wanted to let you know.
